

South Windsor's Leading Fuel Cell Business

Doosan Fuel Cell designs, engineers and manufactures fuel cells for commercial and industrial use. I recently met with Tom Skiba and other employees from Doosan to discuss the company's automated production line for fuel cell stacks. With its growing team and focus on innovation and technology, Doosan's stated vision is to be the global leader in the fuel cell industry right here in South Windsor!

From Your State Senator **TIM LARSON**

Delivering for South Windsor

At the beginning of the year, I was approached by Peter Anthony who informed me about the South Windsor Patriotic Commission's desire to construct a memorial wall in Veterans Memorial Park. I told Mr. Anthony that I would energetically advocate for state bond funds to build the wall to properly honor our veterans.

In September, the State Bond Commission approved a \$75,000 state grant for South Windsor's Patriotic Commission to construct the memorial. The granite wall will enhance the existing monuments to veterans who were killed in action, and will serve as a reminder that the freedom we enjoy comes at a great cost.

Securing this funding is important, not only to recognize those who served and sacrificed, but also because of the tremendous community support for this project. Led by the South Windsor Patriotic Commission, many people worked to raise individual contributions to receive this matching grant.

Department of Veterans' Affairs Commissioner Sean Connolly and I were proud to honor James H. Throwe, Brigadier General (ret) U.S. Army from South Windsor, with the Connecticut Wartime Service Medal.

Honoring Local Veterans

I was proud to help present of veterans from East Hartford, East Windsor, Ellington and South Windsor with the state's Wartime Service Medal Award.

The **Connecticut Veterans Wartime Service Medal** was established by the General Assembly in 2005 to honor all **Connecticut veterans** with qualifying wartime military service.
